SUMMARY: FRONT END WEB DEVELOPER

10+ Years Frontend development: Strong understanding of project requirements and experience working with managers, agencies and on and off-shore teams for successful delivery. Proven track record of end to end development, from project outline and asset delivery to successful deployment for interactive websites, prioritizing project requirements, with clean, extendable, reusable code.

Always ready to help the team whether it be delivering on a tight timeline, debugging compliance or production issues, or lending a hand to junior developers.

PROFESSIONAL EXPERIENCE:

5/2023 - CURRENT PROJECT: mindful-spending.com

React, MongoDB, Typescript, Git

TOOLS:

- | | |
|----------------|--------------------------------|
| • React | • Nginx |
| • MongoDB | • Tanstack v5 |
| • Typescript | • React-hook-form |
| • Next JS | • Amazon EC2- Cloud |
| • Git | • AWS Parameter Store, Metrics |
| • Tailwind CSS | • JSON |
| • Pm2 | • REST API |

This is a front-end application using NextJS, a React framework, Axios and a MongoDB (NoSQL) database, all housed in the cloud on an Amazon Web Services EC2 instance. Data is served securely using Nginx.

Server-side data is fetched via Tanstack v5 (the latest react-query) and NextJS api routes. Via the dashboard component, various React components present views of the user's transaction history, such as individual category totals and running totals of actual spending vs. planned spending.

Mindful-spending App is designed to encourage mindful spending by tracking all the user's purchases on a monthly basis, creating a monthly spending plan and tracking the running total of actual spending vs planned spending. It is designed to be as clear and simple on the front-end as possible while using the latest tools in web development.

FRONT END DEVELOPER AT BRISTOL MYERS SQUIBB, LAWRENCE TWP, NJ

5/2018 - 5/2023, 4/2014 - 11/2017

9+ Years Front end development:

TOOLS:

- javascript
 - HTML5
 - CSS
 - Figma
 - jQuery
 - AEM 6.5
